EDUCATION

Virginia Commonwealth University Richmond, VA

B.S. Computer Science, Concentration: Data Science, Minor: Artificial Intelligence May 2029

GPA: 3.53 | Dean's List

Relevant Coursework: Data Structures, Linear Algebra, Statistics & Probability, Object-Oriented Programming (Java), Intro to Problem Solving (Python), Essentials of AI, Computing and Data Ethics

SKILLS

Data & AI: Python, SQL, pandas, NumPy, scikit-learn, TensorFlow/Keras, preprocessing, feature engineering, EDA, model evaluation, LangChain, embeddings, RAG

Software & Tools: Java, SQL, REST APIs, Git/GitHub, Jupyter, Linux, CI/CD

PROJECTS

Allstate Predicting Auto Claims Severity ML Project August 2026 – Present

- Analyze 188,318 insurance claims and 130 predictors to support a machine learning project predicting final claim cost at initial filing.
- Validate data quality and examine categorical and numerical distributions and relationships; document findings and limitations to inform modeling decisions.
- Collaborate with a three-person team to produce reproducible analysis, written reports, and supporting artifacts using Git/GitHub and independent peer review.

RELEVANT EXPERIENCE

Break Through Tech AI Program Remote

AI Fellow May 2026 – Present

- Completed nine weeks of hands-on coursework using Python data libraries to explore data preparation, analysis, feature engineering, model training, and evaluation.
- Implemented and compared foundational ML models and explored LLM applications using LangChain, embeddings, and retrieval-augmented generation.

Hive Systems Richmond, VA

Cybersecurity Consulting Intern May 2026 – August 2026

- Helped establish an internal monitoring platform using Wazuh, validating authentication data ingestion, data quality, and event classification to support analysis and reporting.
- Developed dashboards to visualize event trends and highlight high-priority security events; expanded detection rules from 8 to 34 to support monitoring and investigation.
- Implemented individualized QR-code functionality, enabling recipient-level data collection and engagement tracking across 600+ simulation recipients.

LEADERSHIP

Society of Women Engineers Virginia Commonwealth University

Contact Chair April 2026 – Present

- Synthesize scholarship, conference, and professional opportunity information into concise weekly newsletters and spreadsheets for chapter leadership and members.

Essentials of AI (CMSC 225) Virginia Commonwealth University

Undergraduate Teaching Assistant August 2026 – Present

- Grade weekly 1,100+ word discussions for 115 students on AI concepts, providing thoughtful, rubric-based feedback.
